

The Cause

Safe water is a basic need, yet 783 million people across the globe don't have access to it. The gift of clean water can completely transform the lives of a community, including their health, education, livelihoods and ultimately their future.

Water scarcity affects 1 in 3 people in Africa. Millions of families are not only suffering from water-borne diseases such as cholera and dysentery, they are often forced to trek long distances daily to access water, putting women and children in danger.

Muslim Hands works globally to provide people with access to clean water and sanitation. **This campaign will target families in need of a borehole to access water.** Boreholes are deep holes in the ground constructed to extract water, sometimes dug as deep as 95 metres.

Thousands of families can benefit from a borehole for generations to come, making this a truly amazing Sadaqah Jariyah project.

Help us give the gift of water to families in Africa.
