INTRODUCTION

Take on the challenge of climbing Mount Olympus (Tahtalı Dağı) and nourish your soul at the spectacular location of Antalya, Turkey. We are inviting both brothers and sisters to seek beneficial knowledge on this spiritual retreat. The classes will be segregated; Shaykh Abu Ibrahim will be teaching, and Ustadha Hiba Mohamed will be teaching the sisters.

The topics for the retreat are 'steadfastness' and 'true happiness'. These topics are crucial to having a sincere mindset, a patient attitude, and remaining firm on your faith during both difficulty and ease. In addition, learning the true meaning of 'steadfastness' and 'true happiness' will help you stay constant in performing good deeds regularly.

On the authority of Abu 'Amr (ra), who said,
'I said, "O Messenger of Allah! Tell me something about Islam which I can ask of no one except you". He (saw) said, "Say I believe in Allah – and then be steadfast".'

(Muslim)

Shaykh Abu Ibrahim (for brothers)

Dr Abu Ibrahim completed his PhD in Law. His research focused on British Muslims and the practice of Islamic family law, particularly the phenomenon of Islamic divorce. He has completed his Alim course, holds a BSc, and an MA in Islamic Studies. He is an imam, khateeb and lecturer, and he regularly delivers sermons and lectures throughout the UK. He is a presenter of Islam-iQA on Islam Channel and regularly works with Muslim charities, community organisations, and educational institutions including Islamic Societies (ISOC's).

Ustadha Hiba Mohammed (for sisters)

Hiba studied Qur'an and Tafseer at KIU university, under the guidance of an array of scholars from Saudi Arabia. She is also highly experienced in teaching Qur'an and Islamic Studies at her local mosque and Islamic institutions. She has a degree in Biomedical Sciences and is currently working in this field. Hiba is a hardworking, dedicated Islamic lecturer, who is passionate about tawhid, tafseer and women's rights. She is currently pursuing her research-based Masters in Tafseer.

Join us on an unmissable spiritual journey that will benefit you in this dunya and the akhirah!

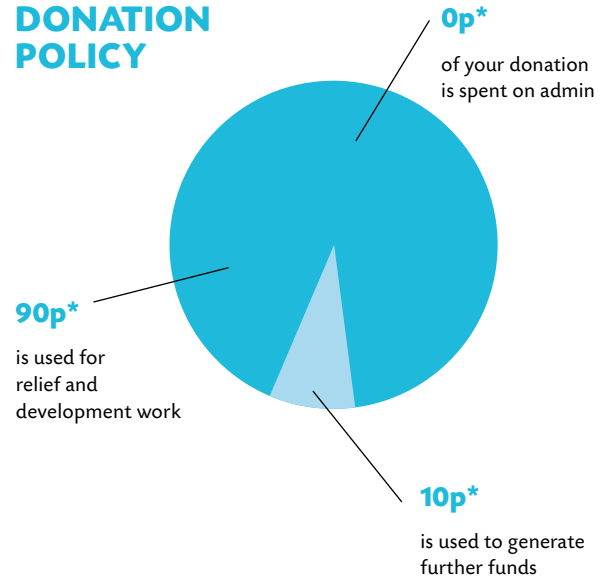

ABOUT MUSLIM HANDS

In 1993, a community in Nottingham, moved by the devastation of the Bosnian war, sprang into action and began collecting money, clothes and medicine for the people of Bosnia.

Muslim Hands grew from this grassroots movement, becoming an international aid agency and NGO. Since these first efforts, we have responded to countless emergencies, as well as establishing long-term projects such as schools, healthcare clinics and livelihood programmes worldwide.

We are working in over 50 countries and have field offices in over 30 of these. By working closely with our partners and offices on the ground, we are able to distribute aid in an effective, efficient, transparent and wholly accountable manner and make a lasting difference to the communities we work with.

DONATION POLICY

*Based on 2019 data; 2020 expected to be similar

At Muslim Hands, we deliver your donations in an efficient and wholly accountable way. Transparency is important to you and to us. We do everything we can to reduce the costs of delivering our projects so that **at least 90% of your donation will benefit communities directly.**

BUILDING A BOREHOLE IN SOMALIA AND A WATER WELL FOR FARMERS IN PALESTINE

'The Messenger of Allah (saw) was asked, **"Which charity is best?" He replied, "[Providing] water"**.
(Abu Dawud)

BOREHOLE IN CENTRAL SOMALIA

According to the World Bank, only 7% of the rural population in Somalia has access to improved water sources. Drought, conflict, displacement and constant instability have left large numbers of people in Somalia without clean water. Water-borne diseases are rife amongst children. The current situation in this area is that there is no suitable water source available. There is an urgent need for these kinds of water projects in central Somalia.

BENEFICIARIES: Over 20,000 families and their livestock will benefit from this borehole.

PROJECT DETAILS: The proposal is to construct a deep borehole which is over 100 metres deep. The borehole will be connected to a 24,000-litre water tanker.

WELL FOR FARMERS IN RAMALLAH, PALESTINE

Ramallah is in the West Bank, around 10km from Jerusalem. There is an Israeli domination over Palestinian water sources in Ramallah, resulting in an insufficient supply for the Palestinian population. Digging wells is expensive and the Palestinians are financially poor. The Palestinians in and around Jerusalem are in dire need of our support to provide them with a water well.

BENEFICIARIES: The direct beneficiaries will be the farming families who live in the area, but indirectly this project supports thousands of Palestinians.

PROJECT DETAILS: This well will provide clean water for drinking, agricultural and farming needs. It will support Palestinian farmers in earning a living and controlling their own food sources. Ensuring the farm is well-equipped will also help the land remain in Palestinian possession at a time when they are regularly losing land.
